

## PEDIATRIC ONCOLOGY SPECIALIST at GORAKHPUR, UP

Hanumanprasad Poddar Cancer Hospital & Research Institute, Gitavatika, Gorakhpur came into existence in 1982. This hospital has now completed its 32 year in the service of poor, desperate cancer patients of 13 districts of Eastern U.P with neighbouring part of Bihar & Nepal.

This hospital is NABH accredited and has 100 beds including Day Care Unit, General wards, Special wards, especially dedicated to cancer treatment having outdoor and indoor facilities for Onco Surgery, Chemotherapy & Radiotherapy. Approximately, 30000 cancer patients are being treated in follow-up every year. The Radiotherapy department of our hospital is well equipped with new advanced multiple energy Linear Accelerator machine TrueBeam, 6MV Elekta Linear Accelerator with IMRT facility, and 5 channel HDR Brachytherapy Unit with modern diagnostic facility.

We are now in the process of expanding our specialised services for Paediatric Oncologist to begin with fully equipped 6 beds inpatient unit.

It is a great opportunity for a suitable specialist to develop world class services for the children who are poorly served in the Poorvanchal area of Uttar Pradesh. It has full potential to develop into a centre of excellence for academic, clinical and research opportunities. We are looking for a paediatrician with interest in oncology or a trained paediatric oncologist to join this hospital.

We will provide the accommodation on campus and competitive salary. Please send an updated resume to [drreema.hppchri@gmail.com](mailto:drreema.hppchri@gmail.com)
